JAKUBOWSKI The Chicago Police Department's Resource and Collaborative Teams (RCTeams) and the Department of Family and Support Services (DFSS) will be hosting a child welfare education and assistance event to be held at 2 p.m. Sunday, May 6, at Harold Washington Library. RCTeams is a multifaceted community policing resource that has been developed to provide positive, life-saving intervention in

---

neighborhoods where street-level crime and gang violence is prevalent. RCTeams teams are made up of nine or more officers and consist of members from patrol, intelligence, gangs, gangs intelligence, community policing, underground railroad and in partnership with other agencies. The teams have served more than 600 police districts since their inception. RCTeams Officers conduct their specialties and responsibilities to help a community get back on its feet. These include: Repair and refurbish public housing units and abandoned buildings. Conduct real estate and property searches, property assessments and property seizures. Provide in-service trainings to Chicago police officers and the general public. Conduct regular street patrols in neighborhoods where there have been prior incidents of crime.

Avira AntiVir VDF Builder allows you to create the self-contained update file for Avira AntiVir. To do this, the program will access the internet database and download latest virus definitions. The user-friendly interface does not require you to write any code. The update builder is small and doesn't affect computer performance. You don't need to configure or install any other software. Avira AntiVir VDF Builder works only with Avira Antivirus 10. The updates are saved to the pen drive or other mass storage device. You can launch the update builder from other computers. Avira AntiVir VDF Builder doesn't require a lot of CPU and RAM and does not affect computer performance. Ciara Express-VDF Builder is an intuitive, simple-to-use and straightforward application that

---

helps you to create a self-contained software update file for your Avira Antivirus version. No setup or configuration is required. The interface contains a simple, intuitive set of options that you can just fiddle with. The program will do all the heavy lifting for you, so you don't even need to read the instructions or read the help file. Best Features Ciara Express-VDF Builder allows you to create the self-contained update file for your Avira Antivirus. It can be used to ensure the security level of your computer against latest virus threats. We evaluated the application in terms of its features, usability, reliability and its compatibility with different Avira Antivirus versions. Installation The software is a standalone executable file that can be directly run on your Windows PC. It won't install any additional software and

---

doesn't require you to do any setup. All you have to do is get your Avira Antivirus version from the media and launch Ciara Express-VDF Builder. Available Avira Antivirus versions Ciara Express-VDF Builder was designed to work with the latest Avira Antivirus version, Avira AntiVir 10. However, it can be used with all Avira Antivirus versions supported by Avira. Clear-cut GUI and options The main Ciara Express-VDF Builder window contains all options you can fiddle with. The application requires you to select the output directory for creating the update file, select the priority level, define the compression mode, and specify the number of files to build. All you have to do is click the Create Update button. Conclusion

---
